

HELLO

January 2017

Dear NBCUniversal,

This letter is to express my interest in becoming a part of the Fellowship Program within the technology division for this upcoming summer. I'm currently pursuing a Master's in Computer Science at Cornell Tech in New York City, having received a Bachelor's in Computer Science prior.

With my past projects, I have received very good feedback on my work done using Sketch and Keynote for rapid prototyping and presentation designs. My background includes internships involving web design and development using HTML/CSS/JS as well as optimizing the UI for Unity applications.

Through this internship, I hope to gain a lot more experience in software engineering and further my experience under NBCUniversal. I first started my journey into the world of digital hieroglyphics my junior year of high school and don't intend to leave the tech scene anytime soon.

Feel free to refer to my GitHub, Speaker Deck, or portfolio for more examples of my product work. I look forward to hearing back!

**Sincerely,
Frances Coronel**
