OBJECTIVE

Data Analyst with a proven track record of leveraging advanced data analysis tools such as PowerBI, Tableau, MySQL, Snowflake, and DBT to extract actionable insights from complex datasets. Skilled in designing and developing interactive dashboards and reports to facilitate informed decision-making processes. Seeking a dynamic role where I can apply my expertise in data extraction, transformation, and visualization to drive strategic initiatives and contribute to a collaborative team environment.

SKILLS SUMMARY

- Multilingual Communication: Fluent in English, Hindi, and Gujarati
- Collaborative Team Player: Focused on team building, customer relations, and collaboration
- Technical skills: MS Office, SQL, Python, Tableau, Power BI, Azure, Snowflake, DBT.
- Additional skills: Punctual, adaptable, accountable, and positive attitude
- Prioritization and Problem-Solving: Ability to multitask, prioritize, problem-solve in a fast-paced environment.

EDUCATION

Post-Graduation Program in Business Analytics March 2023 – March 2024
Loyola Institute of Business Administration (Upgrad), India

Bachelor of Technology in Information Technology August 2015 – June 2019
Alpha College of Engineering & Technology, India
8.21 CGPA

EXPERIENCE

Data Analyst July 2022 – Present
Cygnet Infotech, Ahmedabad, India

- Leveraged advanced data visualization tools such as PowerBI and Tableau to design and develop insightful, interactive dashboards, empowering stakeholders to make data-driven decisions effectively.
- Conducted thorough unit testing in SQL Server Management Studio (SSMS) using SQL queries, ensuring the accuracy and integrity of data throughout the analysis process.

- Spearheaded the development of robust store processor/ETL pipelines in MySQL, optimizing data extraction, transformation, and loading processes to enhance overall efficiency.
- Utilized Snowflake to establish a scalable data warehouse, architecting solutions for data storage and retrieval to support analytical needs effectively.
- Employed dbt (data build tool) to create and maintain data models, facilitating streamlined data transformation and modeling processes to drive actionable insights.
- Collaborated cross-functionally to comprehend business requirements and translate them into actionable data insights, contributing to informed decision-making at both strategic and operational levels.
- Engaged in end-to-end data analysis, from data collection and cleansing to analysis and visualization, providing comprehensive solutions that addressed business needs effectively.
