

Jay Panchal
[Designation]
M.C.A.

SUMMARY**Objective:**

Seeking a position to utilize my knowledge, personal skills and abilities in the Information Technology Industry as a Software Developer that offers Professional growth while being resourceful, innovative and flexible.

Profile Information

- Having 5+ years of experience in .net technologies
- Worked as web development technologies like MVC framework, web APIS, ASP.net framework..
- Having good skill in develop, design and problem solving skill.

TECHNICAL SUMMARY

- Known and worked frameworks MVC 4, MVC 5, MVC 6, WebApi 2.0, Entity Framework (Database first, model first, Code first), .Net core Mvc and Web Api 2.0, 2.1, 3.1
- Having knowledge in database tools like Sql server and Oracle.
- Familiar with web client side technology like Html, Css, JavaScript, jQuery, Ajax and design framework like Bootstrap and Material.
- Used development tools like Visual Studio 2010/2012/2013/2015/2017/2019, Jira, VS Code, Postman, Fiddler.
- Familiar with architecture like N-layered domain driven design, 3-Tier Architecture, Design Patterns.

TECHNICAL DETAILS**TECHNOLOGIES**

Language & Technologies	C#, Sql, JavaScript, Css, Html, Xml, Json
Framework	ASP.NET MVC, ASP.NET, .Net Core, ADO.NET, SSRS, Windows Services, XML/Web/WFC Services, Java Applet, JSON/REST enabled services, Angular, Azure blob storage, Message pump, jQuery, Ajax
Other Technologies	Cordova/Phonegap
Databases	Oracle, Microsoft SQL Server, Mongo Db, Profiler

TOOLS

Management Tools	Jira
Configuration Tools	Tortoise SVN, TFS, Git, GitHub
Reporting Tools	TFS, Jira
Bug Tracking Tool	Jira

INFRASTRUCTURE ENVIRONMENT EXPERIENCE

Operating system	Windows Xp, vista, 7, 8, 10
Web Server	IIS 7.0
Mail Server	SMTP

FUNCTIONAL

Testing	Manual testing
---------	----------------

MANAGEMENT & METHODOLOGIES

Development Methodology	Waterfall, Agile
Practices	Object Oriented Design, Design patterns
Project Management	Sonarqube, Git hub
Estimation Methods	Excel/ Spread sheet

EDUCATION

Degree	University	Passing year
10 th	G.S.E.B.	2007
12 th	G.S.E.B.	2009
B.Com.	G.U.	2012
M.C.A.	G.T.U.	2016

PROFESSIONAL EXPERIENCE – 5 YEARS**The One Technologies**

.Net Developer, January 2019 and January 2021

Responsibilities:

- Software development as per project schedule.
- Troubleshooting and debugging as required for bug fixing.
- Source code version maintenance in version control software.
- Daily status reporting / progress updates / time-sheets.
- Write clean, scalable code.
- Test and deploy applications.
- Prepare project specific documentation as required by project.
- Assign and review task of team members.

Synoverge

Software engineer, November 2017 and December 2018

Responsibilities:

- Development of product as requirement.
- Bug verification and fixing.

- Provide support to client.
- Fix production issue.
- Maintain user friendly UI and functionality.

TCM

Jr. Developer, January 2016 to November 2017

Responsibilities:

- Development of product as requirement.
- Bug verification and fixing.
- Provide support to client.
- Learn and implement development techniques as development requirement.
- Maintain time sheet and give feed back to day to day work to respective person.

KEY PROJECT DETAILS

E-ticket booking system - Duration 2.1 years

Domain	x
Technology	.net core 3.1, Web API, Web form, Telerik, MVC 5, Azure blob storage, Hangfire, jQuery, Ajax, Angular 6 & 10, Kendo Ui, Html, Bootstrap, SQL Server.
Role	Developer, Team supporter
Responsibilities	Software development as per project schedule. Troubleshooting and debugging as required for bug fixing. Source code version maintenance in version control software. Daily status reporting / progress updates / time-sheets. Write clean, scalable code. Test and deploy applications. Prepare project specific documentation as required by project. Assign and review task of team members.
Project Brief	The System provides is an easily customization, personalized ticketing website for venues of all sizes. To provide an e-ticketing solution that any venue can afford. With this system, there are no setup fees, so venues of all sizes can afford to create professional, personalized websites without any additional budget-breaking fees. Allow embed code which runs for any website. Allow to select create you social distance rule for seating arrangement. Create tour sub domain and start selling ticket in 5 min. Reporting management. Participate management.

Motor Insurance (Two wheeler and four wheeler) - Duration 1.1 Years

Domain	x
Technology	.Net Core 2.0, Web API MVC, jQuery, Ajax, Window service, Html, Bootstrap, materialize CSS, Oracle SQL developer, design pattern.
Role	Developer, Team supporter
Responsibilities	Participant in daily stand up meeting Software development as per project schedule.

	<p>Troubleshooting and debugging as required for bug fixing.</p> <p>Daily status reporting / progress updates / time-sheets.</p> <p>Write clean, scalable code.</p> <p>Prepare project specific documentation as required by project.</p> <p>Maintain Project related document if there is change in requirement</p>
Project Brief	<p>It's two wheeler insurance portal where customer can take insurance for their two wheeler vehicle and also they can renew their vehicle insurance up to 3 year.</p> <p>It's four wheeler insurance portal where customer can take insurance for their four wheeler vehicle and also they can renew their vehicle insurance for one year. Also if customer's car is in break-in condition the can set inspection method for vehicle age and policy generation.</p> <p>Vehicle model selection by visual image like, Make - Model - Variant</p> <p>Ask customer and vehicle personal information.</p> <p>Restrict multi tab working.</p> <p>Full responsive</p> <p>Allow to renew policy</p> <p>Quotation for premium breakdown.</p> <p>Provide API to 3rd party client.</p>

Wage Pay System - Duration 3 months

Domain	x
Technology	Mvc5, Boilerplate Code first Entity framework, jQuery, Ajax, Html, Bootstrap, SQL Server.
Role	Developer
Responsibilities	<p>Contact with end client for requirement gathering.</p> <p>Software development as per project schedule.</p> <p>Prepare project specific documentation as required by project.</p>
Project Brief	<p>It's a payroll system that calculate employee's wage monthly and weekly. 4Pay is desktop application (Developed in Visual basic 6.0) which converted in to web app.</p> <p>Add/Import worker details.</p> <p>Calculate working amount based on weekly/ monthly/ daily.</p> <p>Reporting details wage paid.</p> <p>Worker document implementation..</p> <p>Role authentication.</p>

Bad Complaints - Duration 3 months

Domain	x
Technology	.Net MVC 5, Entity framework (Data-base first), jQuery, Ajax, Html, Bootstrap, Html, Bootstrap, SQL-Server.
Role	Developer
Responsibilities	Software development as per project schedule.

	Prepare project specific documentation as required by project. RnD related google Ad sense. Database design. Write clean code, Test all the feature and modules.
Project Brief	This web site is about file complaints against company where people are betrayed or scammed by them and help other to aware. The main purpose of the site to earn amount using Google Ad sense.

Shipping Tracker - Duration 3 months

Domain	x
Technology	.Net MVC 5, Entity framework (Database first), jQuery, Ajax, Html, Bootstrap, Windows Service, Seller cloud API, SQL Server.
Role	Developer
Responsibilities	Software development as per project schedule. Prepare project specific documentation as required by project. Database design. Write clean code, Test all the feature and modules.
Project Brief	Shipping tracking is an management system which stores and manage. Shipped data of transport good or package and many more.

Dental Symmetry - Duration 1 month

Domain	x
Technology	Asp.net, Entity framework (Database first), jQuery, Ajax, Html, Bootstrap, SQL Server.
Role	Developer
Responsibilities	Software development as per project schedule. Prepare project specific documentation as required by project. Database design. Write clean code, Test all the feature and modules.
Project Brief	Its informative website built using web forms that deliver information related to dental clinic. Create CMS using rich text editor. Allow insert and update new pages from admin panel. Contact authorize person for book appointment.

Ace Android - Duration 1 month

Domain	x
Technology	Cordova/Phone-gap, jQuery, WCF Service, Html, Bootstrap, SQL Server, One Single, Google FCM,

Role	Developer
Responsibilities	Software development as per project schedule. Learn Hybrid application development. Prepare project specific documentation as required by project. Write clean code, Test all the feature and modules.
Project Brief	The app is about Commodity Exchange of the highest integrity, available to all people, and accepts international trades, based upon an open free market system for the mutual benefit of producers and consumers.

SEMINARS

Topic	Cloud computing
Role	Attended
Audience (N)	100
Description	Cloud computing is the on-demand availability of computer system resources, especially data storage and computing power, without direct active management by the user. The term is generally used to describe data centers available to many users over the Internet.

Topic	DevOps
Role	Attended
Audience (N)	150
Description	DevOps is a set of practices that combines software development and IT operations. It aims to shorten the systems development life cycle and provide continuous delivery with high software quality. DevOps is complementary with Agile software development
